# How to Use:

- **Lip Gloss:** Apply directly to lips for a moisturizing shine and a subtle aromatic lift. Reapply as needed.
- **Lotion:** Smooth onto hands, arms, or dry areas of the body. Use during your morning routine, after handwashing, or as a calming evening routine.
- **Bath Salts / Foot Soaks:** Add 1–2 tablespoons to warm bath water or a foot basin. Soak, relax, and breathe deeply.
- **Perfume Roll-On:** Apply to wrists, neck, temples, palms, or bottoms of feet. Ideal for morning routines, mid-day resets, or winding down at night.
- **Hand Sanitizer:** Spray or pump onto hands and rub until dry. Great for on-the-go cleansing with a touch of scent.
- **Mouth Sprays:** Spray directly into the mouth for a quick, fresh burst of flavor and aromatherapy support.
- **Diffuser Droppers:** Add 3-10 drops to your favorite diffuser. Enjoy the aromatic atmosphere for focus, calm, or energy.
- **Room, "Poo Pourri" & Mood Sprays:** Shake well, then spritz into the air, on linens, in the toilet, or around your personal space for an instant mood boost and inviting scent.

### Hand Cupping Method:

With lotions, dropper drams, misting sprays, or roll-on perfumes, apply a small amount to your palms, rub together, cup your hands over your nose, and inhale deeply to enjoy the sensory aroma.

### Note:

**Avoid contact with eyes, inner ears, and inside the nose. For external use only (except mouth sprays – use as directed).**
